

Edging with anti-slippery layer

Edging Instruction for SupremeCoat lens with NEW anti-slippery layer.

Handling before edging:

- Do not clean the lens with neither water nor alcohol.
- Mark the lens as handling normal anti-reflective coated lens
- Block the lens using normal edging sticker and holder

Edging process:

- Edging as normal anti-reflective coated lens

Handling after edging:

- Clean the lens and remove the anti-slippery layer by water or alcohol
