

SWISSCOAT Progressive

SWISSCOAT Minipro

It's Small, Smart & Soft

Created for the Fashionable eyeglass wearers who do not want to compromise on style and quality

Small	SWISSCOAT Minipro is a perfect soft, short corridor progressive lens on the market, enabling an easy transition between the far vision zone and the reading zone
Even smaller	Minipro is recommended a fitting height of 16mm, it fits into any small frame
Smart	SWISSCOAT Minipro ensures improved peripheral vision because it is designed through an exact simulation of the eyes
Even smarter	Minipro guarantees perfect binocular vision, enabling patients to clearly perceive an object's depth and dimension
Soft	SWISSCOAT Minipro ensures Eye-Point Technology, the softest lens design for every vision zone
Even softer	Minipro is Aspheric in all its vision zones, it is the thinnest possible lens

SWISSCOAT MiniPro is the ultimate precision-engineered, short corridor progressive lens for accurate. Individualized design for every angle, every vision zone and every prescription. Your patients will immediately sense the difference.
